

BOC Practical Pleated Filter Cartridge

实用型折叠滤芯

技术参数

Technical Data

滤芯尺寸/Cartridge Dimensions

外径/Outer Diameter	7-3/4" (197mm)
长度/Length	9-5/8" (254mm), 19-1/2" (495mm), 30-3/4" (781mm)

部件材质/Parts List

滤材/Filtering Material	聚酯纤维布, 玻纤/ Polypropylene (PP), absorbent cotton, glass fiber
端盖/End Cover	PU, 塑料溶胶/Plastisol

滤芯性能/Cartridge Performance

过滤精度/Filtration Grade	1μm, 5μm, 10μm, 20μm, 50μm
最高操作温度/Maximum Operating Temperature	60°C
最大压差/Maximum Differential Pressure	2.7Bar在常温下/At room temperature

多折式滤芯采用聚酯纤维布过滤材质，它具有经久耐用的性能，过滤介质、中心杆端盖作为整体胶合一起，确保端盖密封性更好，由于它的折叠设计，和其他的滤芯相对比提供了更大的过滤面积，更长的过滤寿命，减少滤芯更新次数，降低过

Fiter cartridge is made of polyester cloth with durable performance. Very good sealing for the glued filter cloth, center rod and end caps. Pleated design has a larger filtration area, therefore longer service life, lower cartridge replacement frequency and cost are allowable.
